PROFESSIONAL SUMMARY

Software Engineer, Data Scientist, and Data Analyst with expertise in building scalable web applications using Laravel, React, and .NET Core. Proficient in the full data analytical pipeline, from EDA to predictive modeling using Python and R. Skilled in managing robust database architectures like PostgreSQL and MySQL to deliver secure, data-driven solutions.

CORE COMPETENCIES

Languages & Frameworks: C#, PHP, Python, R, JavaScript, TypeScript, Laravel, React, .NET, Node.js, FastAPI, Next.js, Tailwind CSS, HTML, CSS, Bootstrap.

Data & Tools: MySQL, PostgreSQL, Microsoft SQL Server, Supabase, Firebase, Exploratory, Excel, TensorFlow.js, Git, GitHub, Figma, Vercel.

Soft Skills: Adaptability, Problem-Solving, Strong Communication Skills

PROFESSIONAL EXPERIENCE

Infosoft Consulting Corporation, Poblacion District

SOFTWARE ENGINEER INTERN | APRIL 2026 - JULY 2026

- Engineered a full-featured DTR system, reducing administrative processing time by 70% through automated digital workflows.
- Implemented secure RBAC and tiered authentication, ensuring 100% accuracy in timesheet supervision and work hour tracking.
- Developed a real-time dashboard with data visualization widgets for instant monitoring and automated payroll reporting.

Peroptyx, Ireland (Remote)

DATA ANALYST | OCTOBER 2025 - FEBRUARY 2026

- Optimized map routing accuracy by evaluating search results, consistently maintaining a 95%+ quality assurance score.
- Analyzed complex geo-spatial data for contextual correctness, identifying and flagging critical mapping errors.

EDUCATION

University of Mindanao | BS in Information Technology | 2021 - Sep 2026 (Expected)

CERTIFICATIONS

Certifications: IT Specialist in Cybersecurity, Network Security, and Databases (Certiport, 2024-2025).

SEMINARS

Seminars: JavaScript & GitHub Training (2026); Innovative Culture in the Office, Mental Hygiene, Leadership, Office Etiquette, Work Ethics, Gender Sensitivity, and Sexual Harassment Awareness Workshop (2026).
